DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

- In claim 1, line 12, change "the ring" to --a ring--;
- In claim 3, line 1, change "Antenna according to Claim 1" to -- Antenna according to Claim 2--;
- In claim 4, line 1, change "Antenna according to Claim 2" to -- Antenna according to Claim 3--.

These changes were made to provide a proper antecedent basis in the claims.

2. Authorization for this examiner's amendment was given in a telephone interview with Cromarty on February 21, 2006.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claim 1 recites an antenna device comprising a radial waveguide, a feed structure excited in two orthogonal linear polarizations, wherein the feed structure consists of a circular waveguide placed at of the radial waveguide and coupled to the latter by two circular slots for the excitation of the antenna in a first linear polarization and of a coaxial waveguide surrounding the circular waveguide and coupled to the radial waveguide by radial slots, the coaxial waveguide being excited by a ring-shaped

waveguide placed coaxial on the outer periphery of the coaxial waveguide and coupled to the latter by slots distributed around the inner periphery of a ring for the excitation of the antenna in a second linear polarization orthogonal to the first linear polarization.

None of the prior arts shows or suggests this antenna device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
